WHY DEVRY SMITH FRANK LLP?

We understand Personal Injury Law

Our personal injury lawyers have practiced personal injury law their entire careers. Many of our lawyers were former insurance defence lawyers. Some of our law clerks were practicing lawyers from other countries before coming to Canada and to DSF who also have extensive knowledge. Others have experience in the medical field. We have a coordinated network of physicians, specialists, psychologists, diagnosticians, physio and occupational therapists, home care workers and rehabilitation consultants to call on. This experience helps us maximize the recovery on your claim.

We have inside knowledge

Many of our personal injury lawyers have formerly acted for insurance companies. This experience gives them special knowledge of the facts and evidence an insurance company is likely to use to limit your recovery. By knowing the case from the other side, our lawyers are better positioned to fight for the maximum payout.

We Offer a Free Initial Consultation

We are pleased to offer a free consultation in connection with personal injury matters. This consultation will enable you to meet with one of our lawyers to determine what compensation may be available for you. The consultation will be completely free without any obligation on your part.
